

# 2G Replacement Program

## *Free alarm communicators*

How it works:

- 1) Replace existing 2G alarm communicators from any manufacturer with new communicators from CRN Wireless.
- 2) Mail in this completed form with the old 2G SIM cards.
- 3) Receive a free AlarmPath cellular or NearNet radio alarm communicator.

Program Rules

2G units must be replaced by new CRN Wireless communicators (AlarmPath or NearNet) that have not previously been activated. Dealer will be mailed a free NearNet unit for every five 2G units replaced or a free AlarmPath unit for every seven 2G units replaced. Shipping for free units is not included and will be at standard rates. Free units received by dealer cannot be counted toward additional free units. Program terms are subject to change without notice. Mail this completed form to:
